## SUMMARY

I'm a Full Stack Developer with a background in telecommunications engineering and hands-on experience in development projects. My expertise spans HTML, CSS, JavaScript, React.js, Next.js, Redux on the frontend, and Node.js, Express.js, PostgreSQL, MongoDB, Sequelize on the backend. Working within agile teams like Scrum, I've honed soft skills such as technical problem-solving and effective communication. I prioritize efficient delivery and collaborative development in demanding environments.

## SKILLS

**Languages:** Java, HTML, CSS, JavaScript, React.js, Next.js, Redux, Node.js.

**Databases:** PostgreSQL, MongoDB, Sequelize.

**Rollout Manager:** Planning and execution, Identification and resolution, Effective collaboration.

**Software:** Microsoft Office (Intermediate), Power BI, Power Query.

## PROJECTS

JavaScript,  
CSS, HTML,  
React, Redux,  
MongoDB

### Front/Back End Developer – EsquinaVerdePlantas

 github.com

- I developed an attractive and easy to navigate landing page, using React for efficient components and prominent calls to action, capturing users' attention from the start.
- I created a functional footer that goes beyond navigation, including quick links, subscription form and social media links, while maintaining visual consistency with the rest of the site for a harmonious close.

JavaScript,  
CSS, HTML,  
React, Redux

### Back End Developer – Pura Vida Viajes Premium

 github.com

- I spearheaded the development of a groundbreaking web project featuring exclusive travel packages across various countries. Leveraging React, CSS, and HTML for the frontend, harnessing the power of Node.js paired with MySQL for the backend, our project boasted an interactive interface adorned with captivating animations, significantly enhancing the user journey.
- My pivotal contributions included integrating a robust and secure payment gateway through PayPal, alongside implementing a comprehensive administrative panel based on CRUD operations.
- This initiative not only highlighted my adeptness with technology but also showcased my ability to seamlessly merge tech prowess with design finesse, culminating in a functional and captivating web experience.

## EDUCATION

7/2023 – 11/2023 **Full Stack Developer**  
Bootcamp to become a web developer

Henry

2012 – 2018 **B.S in Telecommunications Engineer**  
5-year university degree

University of Carabobo

## EXPERIENCE

8/2023 – Current (5 months) **Network Support Engineer | WAN Networks and Telecommunications Equipment Specialist**  **ABAI**

- Address and resolve network failures including Flex WAN, MacroLAN, router, and switch configurations.
- Experienced in diagnostics and troubleshooting across various devices, including fiber optic equipment, ADSL, and leading vendor technologies (Cisco, Huawei, Nokia, Juniper).
- Prioritize operational continuity by employing agile problem identification and resolution, utilizing tools such as Telnet/SSH and other remote access solutions.

Cisco / Nokia / Huawei / Mikrotik / FlexWan / MacroLan / VozIP / SSH / Telnet

3/2022 – 5/2023 (1 year 3 months) **Rollout Manager (ROM)**  **ELETOL**

- Successfully led the deployment of the LTE700 project for Claro in Colombia, ensuring quality and efficiency within established timelines and budget constraints
- Supervised multidisciplinary teams to ensure compliance with quality standards and project schedules, maintaining fluid communication with Nokia and meeting their expectations.
- Optimized resource allocation and demonstrated determination in overcoming challenges, ensuring the timely completion of the project and meeting established deadlines

PowerBI / Excel

- 1/2022 – 2/2023  
(2 months)

**Technical Project Manager**

- Ensured efficient and successful deployments of the LTE700 project for Claro in Colombia, maintaining high-quality standards while controlling time and budget.
  - Addressed multidisciplinary teams to guarantee quality and schedule compliance, emphasizing constant communication with Nokia to meet their needs and expectations.
  - Coordinated resources, optimized budgets, and effectively addressed challenges, prioritizing quality results and adherence to established deadlines throughout the implementation of the project.

KickOff / TDM / TB
- 9/2019 – 12/2021  
(2 years 4 months)

**Telecommunications Project Coordinator**

- Led the implementation of crucial telecommunications projects at ELET COL, overseeing the installation of over 150 links, including the pioneering 5G equipment pilot in Colombia.
  - Actively participated in the modernization of Claro's network with 5GDSS and the installation of the LTE700 band under Nokia, contributing to improved coverage and technological evolution.
  - Engaged in team coordination, project management, and assurance of quality standards, playing a pivotal role in the success and advancement of Claro's technological landscape in Colombia.

Microsoft Project / Trello
- 2/2019 – 8/2019  
(7 months)

**Facilities Quality Auditor**

- Successfully resolved technical issues as an Installation Quality Auditor, ensuring the adherence to standards in radio base installations.
  - Collaborated with multidisciplinary teams to assess the quality of work, employing strong data analysis skills to interpret technical results and maintain high standards.
  - Demonstrated a proactive and customer-oriented approach during interactions with Nokia representatives and other customers during audits, providing clarity on processes and results to enhance understanding.

Excel / Word / SAP
- 9/2018 – 1/2019  
(5 months)

**Lorem ipsum dolor sit amet, consectetur adipiscing elit.**

- Coordinated and managed a field team of installers, assigning responsibilities and overseeing the assembly of telecommunications equipment in radio bases.
  - Ensured installations met established standards by providing technical guidance, monitoring progress, and prioritizing work safety to meet deadlines.
  - Reported progress and challenges to management, while maintaining fluid communication between teams. Proactively addressed technical problems to ensure the smooth execution of tasks.
